KENTUCKY LEGISLATURE

Regular Session.

FRANKFORT, March 16 .- The legislative session of 1898 is a thing of the past. The gavels have rapped for the last time and the legislators are returning to their constituents. At 7 o'clock Tuesday night committees were appointed by the senate and house to notify the governor that they were ready to adjourn. The committees visited the governor and he informed them that he had no further communication to transmit. The house adjourned at 7:40, and at transmit. The house adjourned at 7:40, and at 7:45 o'clock Senator Bronston moved that the senate adjourn sine die, and when Chairman Goebel put the question everybody voted yea, except Doorkeeper Bob Tyler, who voted "No" in a loud voice, he said to emphasize his regret over the cutting off of his per diem. The legislature passed something like 60 bills, the larger number of which are still in the governor's hands, and he may approve or veto them at his leisand he may approve or veto them at his leisand he may approve or veto them at his leis-ure in the next ten days, The session's work can not be properly judged till the governor passes on the numerous bills still in his hands. A number of important bills have been passed.

THE AMAZONAS

To Be Transferred to the United States Government-She Will Join the North American Squadron.

London, March 18.-The warship Amazonas, built for Brazil but purchased by the United States, will be formally transferred to the United States government Friday at Gravesend. Lieutenant Commander Colwell, the United States naval attache here, will receive the ship from her Brazilian commander. A crew from the San Francisco will then be marched on board, the Brazilian flag will be hauled down, and the Brazilian sailors will be landed.

The executive officer of the San Francisco will probably take command of the Amazonas and she will sail for the United States as speedily as possible, under sealed orders. It is supposed she is going to the North American station, where her crew can be reinforced.

The Amazonas had just been provisoned and coaled for her trip to Brazil. The United States government purchased all these supplies.

THE AMAZONAS.

Recently Purchased From the Brazilian Government, Will Bear the Name of New

Washington, March 22. - Secretary Long issued an order Monday that the Amazonas, the cruiser recently purchased at Newcastle-on-Tyne from the Brazilian government, shall bear the name of New Orleans in honor of the principal city of Louisiana. Telegraphic instructions were sent to the naval officer in command of the vessel, who will take immediate steps to carry them into effect. New Orleans was chosen as the name of the warship acquired from the sister republic of South America for the reason that Louisiana is one of the very few states of the union not represented in the navy at this time. There was quite a contest among several other cities to have the new warship named in their honor. Albany, N. Y., Providence, R. I., and Buffalo, N. Y., advancing their claims quite strenu-

Twelve Ordered From the Armstrongs— Part Payment on the Brazilian War Ves-

WASHINGTON, March 18. - The first disbursement under the recent act of congress appropriating \$50,000,000 for the national defense has been made by the treasury department on an executive order for 30,000 pounds sterling, or \$145,995 to be, cabled to London to the credit of Sir William Armstrong in part payment for 12 rapid fire guns, including mounts and ammuntion. The purchase price including mounts etc., is \$21,000 for each gun, or \$252,000 for the 12. In addition to this payment the treasury department Friday will cable Rothschilds at London \$1,689,621 in full payment for the Brazilian cruiser Amazonas, and in part payment for the Abrevall. The 12 rapid-fire guns are for the use of the war department.

BROWN PRISMATIC POWDER.

Largest Single Order Ever Given by the Government on the Pacific Coast. SANTA CRUZ, Cal., March 19 .- The California powder works received orders from the navy department on Wednesday, for 3,000,000 pounds of brown prismatic powder. Thursday the same concern received an order for 200,000 pounds of the same kind of powder for immediate delivery. These, together, make the largest single order for powder ever given by the United

States government on this coast. About six months will be required to fill these orders, even with the additional machinery now in course of construction. Previous orders for smokeless powder will keep the works running at their full capacity for a year.

The Lucania's Fast Run. QUEENSTOWN, March 19. - The Cunard line steamer Lucania, Capt. McKay, which sailed from New York on March 12 for Liverpool via this port, arrived here at 3:58 o'clock. On March 15 she steamed 531 knots and on the following day she made 530 knots, beating her previous records on both days. Her previous best record for a day's run eastward was 526 knots, but she has made 562 knots in a day's run going

WASHINGTON,, March 22.—It can be stated positively and authoritatively that the report of the court of in-quiry on the Maine disaster had not been received up to noon Monday. From the same authoritative source it can be stated that the present of- lin, which will sail for Key West some ficial information is that the report is time this week. not likely to be here before next Thursday or Friday. It is a material change from the expectation prior to this time. The cause of the delay is not known, but it is assumed that the conclusions of the court are not yet in such exact form as to warrant their

earlier presentation here. The government has made no further purchases of warships, but its negotiations in that line have been productive of at least one important result, namely, in establishing that unless the battleship Gen. O'Higgins becomes the property of the United States it will not be sold at all. Spain, it is confidently asserted, will not be able from the Watervliet arsenal, and for to secure this war vessel, nor the first time the strategic value of the are her chances any better or well known inside water route will be as good as those of the United States, tested.

Workmen are busy at the pier on East river preparing to load these guns and anchor them to the deck of the schooner. The larger pieces weigh 83 tons each and the smaller ones 16 tons each and the utmost care will be exercised in placing them so that they will not prove too heavy for the ship should a storm strike it.

While it is stated that these guns are to be landed at Key West for the fortifications there, it is believed here that some of them will find their way to Dry Tortugas, which is being fortified for an advanced naval station.

Other guns are soon to be sent south

GAINED 22 POUNDS IN 5 WEEKS

From the By-Stander, Macomb, Ill.

Alderman Louis W. Camp, of our city, has quite astonished his friends of late, by a remarkable gain in weight. He has gained 22 pounds in five weeks. Those of his friends who do not know the facts of his sickness will read with interest the following:

"I was broken down in health and utterly miserable," said Mr. Camp to our reporter.

"I was unable to work much of the time and so badly afflicted with a form of stomach trouble that life was a veritable nightmare.

"I tried various remedies, but during the six months of my sickness I obtained no relief. I had always been a robust, healthy man and sickness bore heavily upon me.

"About two years ago I was advised to try Dr. Williams' Pink Pills for Pale People, I purchased one box and received so much benefit that I used five more and was entirely cured. I gained twenty-two pounds in five weeks. Since I stopped taking the pills. I have scarcely had an ache or pain.

MT. VERNON has good citizens. She has benevolent citizens, but what she lacks is enterprising citizens. What we need is to open our eyes-shake the dust from off the seat of our pants-roll up our sleeves and go to work-work not only to help ourselves but a benefit to the public. We have a Board of Town Trustees of most excellent gentlemen. They have made a splendid beginning by ordering certain sikewalks to be put down, but they have not gone far enough. town, the streets, the sidewalks, street lamps, &c. You have absofute power to order, and absolute power to enforce the order when made. Richmond street is entirely too narrow. The citizens on that street are all willing to move back their fences, but one is waiting for the other. We want children. young ladies and gentlemen to come here and go to the College Yet, if they come, we force them to wade in the mud up to their knees to get to the College building. Spring is here and lets paint our houses, clean up our property, put down sidewalks, widen and clean our streets, take more pride in ourselves, our families, our property and our town and we will look, do, and feel much better.

When a father writes that yours "is the best medicine in the world," you can allow something for seeming extravagance in the statement if you know that the medicine so praised, cured a loved daughter of disease and restored to her the eyesight nearly lost. The best medicine in the world for you is the medicine that cures you. There can't be anything better. No medicine can do more than cure. That is why John S. Goode, of Orrick, Mo., writes in these strong terms:

cure. That is why John S. Goode, of Orrick, Mo., writes in these strong terms:

"Dr. Ayer's Sarsaparilla is the best medicine in the world. My daughter had a relapse after the measles, due to taking cold. She was nearly blind, and was obliged to remain in a dark room all the time. The doctors could give her no relief; one of them directed me to give her Ayer's Sarsaparilla. Two bottles cured her completely."

The thousands of testimonials to the value of Dr. Ayer's Sarsaparilla repeat over and over again, in one form or another the expression: "The doctors gave her no relief; one of them directed me to give her Dr. Ayer's Sarsaparilla. Two bottles completely cured her."

It is a common experience to try Dr. Ayer's Sarsaparilla as a last resort. It is

a common experience to have Dr. Ayer's Sarsaparilla prescribed by a physician. It is a common experience to see a "complete cure" follow the use of a few bottles of this great blood purifying medicine.

Because, it is a specific for all forms of blood disease. If a disease has its origin in bad or impure blood, Dr. Ayer's Sarsaparila, acting directly on the blood, removing its impurities and giving to it vitalizing energy, will promptly eradicate the disease.

A Negro Pioneer Who Rose Superior He Was the Most Ferocious of All the Famous Buccaneers.

L'OLONNOIS, THE CRUEL

William Thomas is a negro whose remarkable aim in life is to, under all circumstances, tell only the truth. William was indicted by the next to the last grand jury for grand larceny, and he was brought from jail this morning to be arraigned. Thomas has what is termed a "tough case," so he agreed with the prosecutor to plead guilty and receive the minimum sentence—two years in the Among the buccaneer leaders who distinguished themselves as land pirates was Francis L'Olonnois, a Frenchman. In those days it was the custom to enforce servitude upon people who are not able to take care of themselves: minimum sentence-two years in the unfortunately debtors and paupers of penitentiary.
"Stand up, Thomas," said Judge Wofford.
"Are you guilty or not guilty?"
"Judge," answered the man, with a sigh, all classes were sold to people who had need of their services. Boys and "Judge," answered the man, with a sigh,
"I do hate to tell a lie, but I guess I'll have
to. I'm guilty."
"Oh, you hate to tell a lie, de you? I
won't let any man plead guilty if he thinks
he is innocent. You'll stand trial."
This was exactly what William's attorney girls were sold for a term of years, somewhat as if they had been apprentices; and it so happened that the boy L'Olonnois was sold to a master who took him to the West Indies. There he led the life of a slave until he was of did not want.
"Your honor," he said, "this man is not accustomed to court ways. He did not mean age; and then, being no longer subject to ownership, he became one of the freest and most independent persons "That's right, judge. I never was in court before, and I don't think I quite got who ever walked this earth. He began his career on the island of Hispaniola, "You may not understand much law," rewhere he took up the business of hunttorted the court, "but you know whether you went into that store and stole those ing and butchering cattle, but he soon became a pirate, and enlisted as a common sailor on one of their ships. Here he gave signs of being so brave and unscrupulous that one of the leading Crippled for years? Pshaw! Why St. Jacobs Oil will cure sprains right off. Sure pirates on the island of Tortuga gave him a ship and a crew, and set him up in business. The career of L'Olonnois Very few people care to be undertakers, was much like that of other buccaneers of the day except that he was abominably cruel to his Spanish prisoners.

All the barbarities attributed to the pirates of the world were united in the Sacque religious-the young woman who career of this wretch, who does not appear to be so good an example of the true pirate as Roc, the Brazilian. He was not so brave, he was not so able, and it would be impossible for anyone to look upon him as a hero. After having attained in a short time the reputation of being the wickedest pirate of his day, L'Olonnois was unfortunate enough to be wrecked upon the coast near Campeachy. He and his crew came safely to shore, but it was not long before their presence was discovered by the people of the town, and the Spanish soldiers attacked them. There was a fierce fight, but the Spaniards were stronger, and the buccaneers were utterly defeated. Many were

killed, wounded or taken prisoners. Among the wounded was L'Olonnois, and when the Spaniards walked over the battle field, he was looked upon as killed. When the soldiers had retired, be stealthily arose and made his way into the woods, where he stayed until his wounds were well enough for him to walk about. He divested himself of his great boots, his pistol-belt, and the rest of his piratical costume, and ing to his scanty raiment a cloak hat which he had stolen from a cottage, he boldly approached t and entered it. He looked like a very erdinary person, and no notice taken of him by the authoriti he found shelter and somethi and he soon began to make very much at home in the Campeachy. -Frank R. Stockt

These two words emphasize a necessity and indicate a remedy.

SPRING—the season when the blood is ter's closer confinement, higher living, slower action of the kidneys and liver; when humors of all kinds, boils, pimples and eruptions are most liable to appear; when the weak, languid condition of the whole bodily structure demands and welcomes help.

MEDICINE—that to which the millions turn at this season-Hood's Sarsapa rilla. The original and only preparation especially adapted to the present needs of the human family; that which makes the blood pure and clean, as shown by its thousands of wonderful cures of dreadful blood diseases; creates an appetite and cures dyspepsia, as shown by its "magic touch" in all stomach troubles; "C. as I had been troubled with dyspepsia. The drain on my system was so severe and my stomach was so weak I became a ready victim of malaria. I feared I could never regain my health. My stomach rebelled at the simplest food, and the medicines prescribed for me gave but little relief. I sent for a bottle of Hood's Sarsaparilla, and I had taken this medicine but three days when I began to improve. Continuing with it, I am now better and stronger than I ever expected to be. It has purified my blood and given good circulation. I have had no return of my old troubles since." Mrs. W. KANE, Media, Pa. Hood's Sarsa-

THE INGENIOUS MAN.

His Invention Was Forgotten in Time

of Need. He was a very ingenious man. He had made an invention which was of great value. He thought so, at least, if the world did not, and he had his invention patented. It was a combination camp-stool, cane and umbrella. The cane was the usual form of the invention. At a big parade nothing could be more convenient, and for an ordinary, unexpected rainstorm, what could be better? A man is sure to have his walking stick with him.

It was not so very long after the invention had been perfected that the man was out walking with his wife, and a sudden shower came up. There were no cars accessible, and came up. There were no cars accessible, and the only thing to do was to run, and the unlucky pair did this with a vengeance, reaching the house hot, uncomfortable, and

"Well, we are here at last," said the man, "Well, we are here at last," said the man, drawing a long breath of relief.
"Yes," said the wife, disconsolately, "but I think I have ruined my new bonnet. And, John Smith," she added, suddenly, with a little scream, "what do you think you have lone? You had that old invention of yours—cane-camp-stool-umbrella affair—in your hand all the time ready for an emergency, and forgot to use it." and forgot to use it."

The man tells the story, and thinks it is great joke.—N. Y. Times.

Write us ist How long you have known, used or sold Dr. M. A. Simmons Liver Medicine. 2nd State Diseases it cured. 3d Give names of those cured. 4th State the difference between its strength and action and the strength and action of J. H. Zeilin & Co.'s "Liver Regulator" and the Chattanooga Medicine Co.'s "Plack Draught," both of which contain Woody Bulbs of Roots and Stems of Herbs, and have sold at about 6 cents per package, and should not retail at over 10 cents if consumers are not imposed upon, while Dr. M. A. Simmons Liver Medicine, made from the purest and most carefully selected Drugs, regardless of cost, with the Bulbs of the Roots and Stems of the Herbs by our secret process extracted and thrown away, cannot be sold at less than 25 cents. The reason of the difference is this: On June 30th, 1893, the Supreme Courtenjoined J. H. Zeilin & Co. from manufacturing and selling medicine under the name of "Dr. Simmons' Liver Medicine."

Zeilin's answer to our bill said, the medicine for the negroes of the Mississippi Valley." And Zeilin's manager testified in the case, and Zeilin's manager testified in the case, and Zeilin's advertisements said "that all the Liver Medicine they make is made by the same formula." What more conclusive evidence could there be that all their Liver Medicine is "cheap negro medicine?"

Again, the United States Court, in the Zeilin case at Knoxville, Tenn., enjoined the old proprietors of the article now called "Black Draught" from perpetrating fraud by using the words constituting our trade name, and "Black Draught" was not known till after 1876; yet they falsely advertise that it was established in 1840, and filch our trade hame, and "Black Draught" was not known till after 1876; yet they falsely advertise that it was established in 1840, and filch our trade hame, and "Black Draught" was not known till after 1876; yet they falsely advertise that it was established in 1840, and filch our trade hame, and "Black Draught" as not known till after 1876; yet t LIVER MEDICINE CERTIFICATES.
